

# 18-position distribution box national standard

## Article Overview

An 18-position distribution box typically complies with IEC/EN standards, with IP30-IP65 protection, suitable for indoor and outdoor electrical installations.

### Standards and Compliance

18-position distribution boxes are generally designed according to IEC 60439-1 or BS/EN 61439-3, which define requirements for low-voltage switchgear and controlgear assemblies, including safety, mechanical strength, and electrical performance ( ). CE marking is common for European compliance, ensuring conformity with EU directives ( ).

### Protection and Material

- IP Ratings: Indoor boxes often have IP30, while outdoor or industrial boxes are rated IP65 for dust and water protection ( ).
- Material: Commonly made from ABS or polycarbonate for durability and UV resistance, especially for outdoor use ( ).
- Color: Typically white (RAL 9003) or cream (RAL 9001) for standard installations ( ).

### Dimensions and Configuration

- Module Capacity: 18 modules in a single row, with options for multiple rows in larger boxes ( )....
