

8 pure optical ports on the TP-Link switch

Article Overview

The TP-Link TL-SX3008F is an 8-port 10G SFP+ fully optical switch, ideal for high-speed fiber networks.

Overview

The TP-Link TL-SX3008F JetStream is a fully managed switch featuring 8× 10G SFP+ ports, providing pure optical connectivity for high-bandwidth applications . It is designed for enterprise, data center, or advanced home lab environments where fiber connections are required for low-latency, high-speed networking.

Key Features

- Port Configuration: 8 SFP+ ports supporting 10 Gbps each, enabling full 10G fiber connections .
- Switching Capacity: 160 Gbps non-blocking, ensuring high throughput for all ports simultaneously .
- Management: L2+ managed switch with support for VLANs, QoS, port mirroring, and advanced security features like ACLs, IP-MAC-Port binding, and storm control .
- Integration: Compatible with TP-Link Omada SDN for centralized cloud management, zero-touch provisioning, and intelligent monitoring .
- Console Ports: Includes 1× RJ45 and 1× micro-USB console port for local management .
- Deployment: Rackmountable 1U design with flexible installation options, suitable for both small and medium-sized networks
