

Bahamas APC Integrated Data Center Micro-Module Pricing

Article Overview

APC micro data center solutions are available in the Bahamas through authorized distributors, with pricing dependent on configuration, power capacity, and optional modules.

Overview of APC Micro-Modules

APC's InfraStruXure® Micro-Modules are modular, rack-optimized data center solutions designed for rapid deployment in small or regional IT environments . These units integrate power, cooling, racks, management, and services into a compact, pre-assembled enclosure, providing high availability and scalability. The modular design allows you to select standardized components to match your IT load and future expansion needs.

Key Features

- Power Capacity: Typically ranges from 3kVA to 20kVA depending on the model and configuration .
- Rack Size: Commonly 24U or customizable to fit space constraints .
- Integrated Systems: Includes UPS, power distribution, environmental monitoring, and optional fire suppression .
- Scalability: Modular architecture allows adding additional power or cooling modules as demand grows .
- Management: Centralized monitoring via APC InfraStruXure Manager ensures upti...
