

Calibrating a multimeter in Libya

Article Overview

You can calibrate a multimeter in Libya through accredited laboratories such as Libyan Calibration Services, Almithak Calibration, or Atlas Copco Libya, all offering ISO/IEC 17025-compliant services.

Available Calibration Services

Libyan Calibration Services (LCS) provides professional calibration for various measuring devices, including multimeters, with a focus on accuracy, precision, and traceability to international standards. Their laboratory is equipped with modern imported equipment, and their technicians are trained continuously to maintain high-quality calibration services in accordance with ISO/IEC 17025 . Almithak Calibration Laboratory in Tripoli offers both laboratory and on-site calibration services across Libya. They employ experienced engineers and technicians and use modern equipment to ensure reliable calibration of multimeters and other measurement tools. Their services comply with ISO/IEC 17025 standards, ensuring traceable and accurate results . Atlas Copco Libya provides accredited calibration services for industrial and service equipment. Their certified technicians perform calibrations in the lab or on-site, issuing calibration certificates traceable to national or international standards. This ensures your multimeter readings are accurate and compliant with recognized quality standards .

Why Calibration is Important

Calibration ensures that your multimeter provides accurate and reliable measurements, which is critical for industrial, laboratory, or technical applications....
