

# Case Study of High-Voltage Complete Equipment Installation in a Belgian Data Center

## Overview

Laminar Projects was tasked with orchestrating the critical MEP (Mechanical, Electrical, and Plumbing) installation and commissioning phases of a hyperscale data centre for a global tech leader in Belgium. In a world where almost everything is connected to the cloud, the need for data centers is growing exponentially. Companies from various sectors, such as. Looking for a reliable partner for your High Voltage installations?

Newelec's High Voltage department studies, designs, and delivers turnkey HV projects, renowned for their technical sophistication, safety, and adaptability across all Belgian public and private networks. The 36-hectare facility in the Feluy-Écaussinnes industrial zone recently obtained its permit, but only medium-voltage electricity is currently. As part of their €1. Coffey to provide full-service outsourced engineering solutions including site engineering, setting out and.
