

Dutch High Voltage Busbar Manufacturer

Article Overview

Busbar Systems and Elektro Internationaal are key Dutch suppliers of high voltage busbar systems, offering EAE rail systems and customized busbar solutions.

Key Dutch Suppliers

Busbar Systems

- Established in 1993, Busbar Systems is the official Dutch distributor of EAE railkokers (busbar trunking systems) suitable for currents from 25A to 6300A .
- They provide full services including engineering, delivery, and installation, ensuring systems are operational upon handover.
- The company maintains a large stock of elements and tap-off boxes in Amsterdam, allowing for flexible and rapid delivery.
- EAE, the manufacturer, is a global leader in busbar systems with ISO 9001 and 14001 certified production facilities and independent testing certifications such as DEKRA . Elektro Internationaal (EI Woerden)
- Offers flexible, touch-safe busbar systems for utilities, industry, and data centers .
- Provides modular and customized solutions, including integration with measurement and billing systems.
- EI engineers and supplies busbar products from various suppliers, including their subsidiary STbenelux, a certified Canalis partner of Schneider Electric .
- They emphasize plug & play installation and provide expert consultation for project-specific requirements.
