

European relay protection tester manufacturer in stock

Article Overview

Leading European manufacturers of relay protection testers include Megger, HV Test Tech, and P&B, offering in-stock solutions for both electromechanical and digital relays.

Key Manufacturers and Offerings

Megger Megger provides advanced relay testing solutions suitable for routine tests, large-scale commissioning, and IEC 61850 digital substations. Their products include portable and PC-based relay test modules, with onboard screens allowing full functionality without a PC. Megger's solutions support both manual and fully automated tests, and their RTMS software enables comprehensive relay asset management and diagnostics . HV Test Tech HV Test Tech offers a wide range of relay testing equipment for both legacy electromechanical and modern digital relays. Their devices are designed for high precision, user-friendly operation, and versatile testing across various applications. They also provide training and support services to ensure proper use and system reliability . P&B Group P&B, based in the UK, specializes in directional and other protection relays. Their MR-METI31 Directional Relay is an example of their in-stock offerings, designed for heavy industry applications with high safety and performance standards . Other Suppliers DirectIndustry lists over 70 products from European brands such as OMICRON and WUHV, providing a broad selection of relay protection testers for immediate procurement . Tester.co.uk also offers precision relay test sets from Megger and T&R, suitable for single and three-phase equipment, including circuit breaker analysis
