

External Optical Amplifier Brands

Article Overview

Top external optical amplifier brands include Lumentum, Thorlabs, RPMC Lasers, and Banner Engineering, offering fiber and semiconductor optical amplifiers for telecom, research, and industrial applications.

Leading Optical Amplifier Brands

- Lumentum Operations LLC – A major provider of optical components and amplifiers, Lumentum specializes in high-performance fiber and semiconductor optical amplifiers for telecommunications and industrial applications .
- Thorlabs, Inc. – Offers a wide range of optical amplifiers including erbium-doped fiber amplifiers (EDFAs), ytterbium-doped fiber amplifiers (YDFAs), praseodymium-doped fiber amplifiers (PDFAs), and semiconductor optical amplifiers (SOAs). Products are available as benchtop systems, PXIe modules, or pigtailed butterfly packages, suitable for research, OEM, and pilot projects .
- RPMC Lasers, Inc. – Provides fiber and solid-state optical amplifiers, wide-wavelength laser diodes, and pulsed lasers. They also offer customization for medical, defense, and research applications .
- Banner Engineering Corporation – While primarily known for industrial automation, Banner supplies optical sensors and amplifiers for specialized industrial applications .
- Other notable brands – Additional manufacturers include MPB Technologies, MICROSENS, GLSUN, and TELKOM-TELMOR, which offer fiber optic amplifiers, optical line systems, and semiconductor optical amplifiers for high-speed communication networks and laboratory setups .
