

Fiber Optic Coupler Price

Article Overview

Fiber optic couplers typically range from \$5 to over \$200 depending on type, mode, and specifications.

Price Ranges by Type

- Basic LC, SC, or ST couplers for singlemode or multimode fibers are generally priced between \$5 and \$30 per unit for standard retail packs, such as 10–20 pieces on Amazon .
- High-performance or industrial-grade couplers from brands like Panduit, Phoenix Contact, or RS PRO can range from \$50 to \$150, depending on fiber mode, coupling ratio, and insertion loss .
- Specialized couplers and splitters, including fused biconical taper (FBT), polarization-maintaining (PM), or PLC splitters (1x4, 1x8, 1x16), can cost \$100 to \$200 or more, particularly for singlemode or double-clad fibers used in OCT or high-precision applications .

Factors Affecting Price

- Fiber Mode: Singlemode couplers for long-distance or high-bandwidth applications are more expensive than multimode couplers used for short-range links .
- Coupling Ratio: Standard 50/50 split couplers are cheaper, while tap couplers with high split ratios (e.g., 90/10 or 99/1) for monitoring purposes cost more .
- Connector Type: LC, SC, ST, and E2000 connectors vary in price, with LC and SC being the most common and cost-effective .
- Brand and Quality: Premium brands and industrial-grade components with low insertion loss and high durability command higher prices
