

Fiber optic transceiver OEM products

Article Overview

Fiber optic transceiver OEM products are available from leading suppliers offering customizable, high-performance modules compatible with major network brands and supporting speeds from 100M to 1.6T.

Leading OEM Suppliers

FiberWeek Technology provides high-quality optical transceivers with OEM/ODM services, supporting flexible minimum order quantities and global delivery. Their products are compatible with major brands like Cisco, Juniper, Arista, and H3C, and they offer modules for data centers, telecom operators, and enterprise networks. FiberWeek emphasizes strict quality control, comprehensive testing, and rapid production capabilities to ensure reliable performance for large-scale or urgent projects . Inphitech specializes in high-end optical transceivers, including 100G, 400G, and 800G modules. They leverage advanced optical design, high-frequency circuit expertise, and automated testing platforms to deliver high-cost performance products. Inphitech supports OEM/ODM customization and maintains strategic partnerships to ensure quality, cost efficiency, and timely delivery . FS.com offers a broad portfolio of optical transceivers ranging from 100M to 800G and beyond. Their modules are tested in-house for compatibility and reliability, and they provide nearby warehouse shipping with a 30-day free return policy, making them a convenient option for enterprise users seeking OEM solutions . FiberMall provides factory-direct, cost-effective optical transceivers and related connectivity products, including DAC and AOC cables. They focus on high-quality, scalable solutions suitable for cloud data centers, wireless access, and transmission networks . Amphenol delivers optical transceivers across all major form factors, including SFP, QSFP, CFP, XFP, and OSFP,...
