

Finland Customs Cost Connector 4-core

Article Overview

Importing a 4-core connector into Finland may incur customs duty and VAT depending on its value, classification, and country of origin.

Determining Customs Duty

The customs duty for a 4-core connector depends on its Harmonized System (HS) code and the TARIC classification used by the EU. Electronic connectors typically fall under HS codes for electrical components, and the duty rate can range from 0% to over 10%, depending on the exact product and origin . To find the precise duty rate, you can use the TARIC database by entering the product description, HS code, and country of origin .

Customs Value Calculation

The customs value is based on the transaction value of the goods, usually calculated on a Cost, Insurance, and Freight (CIF) basis to the first EU entry point . This means the total value includes:

- Price paid for the connector
 - Shipping costs to Finland
 - Insurance costs during transport
- The customs duty is then applied to this CIF value.

VAT and Other Charges

In Finland, Value Added Tax (VAT) is always charged on imported goods, regardless...
