

Finland Electricity Meter Distribution Box Price Quote

Article Overview

Electricity distribution boxes in Finland typically range from €50 to €200 per unit, depending on capacity, features, and supplier.

Overview of Distribution Boxes

Distribution boxes, also known as distribution boards, are central components of electrical systems that safely distribute electricity across multiple circuits. They house protective devices such as circuit breakers and fuses, ensuring safety for users and equipment. Modern boxes may include grounding bars, integrated sockets, and overcurrent protection, suitable for indoor or outdoor use .

Pricing Information

- Electricity supply meters imported into Finland averaged \$59 per unit in 2024, with export prices around \$108 per unit, reflecting market trends and supplier differences .
- Distribution boxes from suppliers like Könnér & Söhnen in Finland are designed for up to 7 groups of devices with a maximum current of 32A, and prices generally range from €50 to €200, depending on features such as weather resistance, portability, and integrated sockets .

Factors Affecting Price

- Capacity and Current Rating: Higher amperage or more circuit slots increase cost....
