

Georgia Low Voltage Reinforced Cable Tray

Article Overview

Georgia offers multiple reliable low voltage cable tray providers, including Backbone Cabling Technologies and GA LVT INC., specializing in structured cabling, fiber, and copper installations.

Local Providers

Backbone Cabling Technologies is a Georgia-based low voltage contractor located in Suwanee, Georgia. They provide comprehensive services for voice, data, fiber, access control, and video systems. Their offerings include installation of racks, cabinets, ladder racks, and tray systems to complete IDF and MDF build-outs. They also assist with cabling plant design to ensure optimal layout, usability, and serviceability. Backbone installs Cat5e, Cat6, and Cat6A cabling, as well as fiber optic infrastructure, and typically offers a one-year parts and labor guarantee on installed systems . Georgia Low Voltage Technologies, Inc. (GA LVT INC.) is a national low voltage systems integrator with a strong presence in Georgia. They specialize in the design, engineering, and installation of fiber and copper cabling systems for businesses of all sizes. GA LVT INC. provides end-to-end structured cabling solutions, including multi-mode and single-mode fiber, high-speed copper infrastructure (10-Gig capable), wireless network engineering, and security systems such as CCTV, fire alarms, and paging. All installations meet or exceed NEC and BICSI standards and are fully tested, certified, and labeled .
