

Headlight High Beam Control Module Icon Explanation

Article Overview

The high beam control module is typically represented by a blue headlight icon with horizontal lines projecting outward, indicating full beam activation.

Common Headlight Symbols

- **High Beam Indicator:** A blue icon showing a headlight with straight horizontal lines extending forward, often located on the dashboard or control stalk. It lights up when high beams are active and serves as a reminder to switch back to low beams when approaching other vehicles .
- **Low Beam Indicator:** Usually a green or white icon with a headlight and downward-slanting lines, indicating standard headlights are on for normal night driving .
- **Automatic Headlights:** Represented by an “A” or “Auto” symbol, often in green, white, or orange, showing that the vehicle's lights adjust automatically based on ambient light conditions .
- **Adaptive Front-Lighting System (AFS):** A symbol combining an “A” with a headlight, indicating headlights that adjust direction based on steering and speed .
- **Front Fog Lights:** A headlamp icon with wavy lines pointing downward, used in foggy conditions to improve visibility .
- **Rear Fog Lights:** Similar to the front fog light symbol but with a “tail” or lines pointing backward, alerting drivers behind you in poor visibility .
- **Daytime Running Lights (DRL):** Often a small headlight icon that illuminates automatically during the day to increase vehicle visibility .
- **Bulb Warning Symbol:** Indicates a malfunction or burnt-out headlight bulb, usually...
