

High-quality manufacturer of secondary distribution boxes in the Maldives

Article Overview

Plankton Engineering is a leading manufacturer of high-quality secondary distribution boxes in the Maldives, offering customized, durable, and standards-compliant electrical panels.

Plankton Engineering

Plankton Engineering is a well-established electromechanical engineering company in the Maldives, specializing in the design, assembly, and supply of high-quality distribution panels including metering panels, generator control panels, high voltage panels, and VFD panels . Their distribution boxes are equipped with premium protective circuit breakers and can be customized to fit space constraints, ensuring safety and operational efficiency. They also provide Automatic Transfer Switch (ATS) panels, soft starters, harmonic filters, and surge protection systems, making them suitable for industrial, commercial, and residential applications . Plankton Engineering uses globally recognized components from vendors like Deepsea Electronics and Panasonic, ensuring reliability and compliance with international standards .

XRM Lighting Distribution Boxes

XRM lighting distribution boxes are lightweight and versatile devices suitable for secondary distribution in industrial, commercial, and residential settings . They support AC 50/60Hz, rated voltage up to 400V, and load currents up to 100A, and are designed with fully enclosed structures, control switches, signal indicators, and mod...
