

How much does a 10G optical module with a range of 40km cost

Overview

The average 10G SFP price typically falls between \$10 and \$300, depending on the module type, transmission distance, and brand. For most standard enterprise and data center deployments, the practical buying range is much narrower—and far more predictable—than many price lists. The price of a 10G SFP+ module typically ranges from low double digits to several hundred dollars, and in some cases even higher. This transceiver is compliant with SFF-8431 and SFF-8432. Featuring low power consumption. The Cisco 10GBASE-ER Module supports a link length of up to 40 kilometers on standard single-mode fiber (SMF, G. Distance: 40km PLANET Technology's 10000Mbps 10G Ethernet XFP/SFP Fiber Transceiver offers a range of Small Form-factor Pluggables (SFP) transceivers for your PLANET devices. The 10G SFP and 10G Fiber Optic (XFP) Gigabit.
