

How much does a bundled fiber optic patch cord cost

Article Overview

A bundled fiber optic patch cord typically costs between \$0.05 and \$1.50 per meter, depending on fiber type, connector, and construction.

Pricing Overview

The cost of a fiber optic patch cord varies widely based on several factors:

- **Fiber Type:** Single-mode fibers are generally less expensive per meter than multimode fibers, but multimode fibers like OM3, OM4, or OM5 are optimized for high-speed data and may cost more .
- **Connector Type:** LC, SC, MPO/MTP connectors influence cost, with MPO/MTP requiring precise alignment and polishing, especially for 12F or 24F cores .
- **Cable Construction:** Armored cables or those with LSZH jackets for harsh environments or public buildings are more expensive than standard indoor cables .
- **Length and Strand Count:** Longer cables and higher fiber counts increase the price linearly. For example, a 12-strand cable costs more than a 2-strand cable .

Typical Price Ranges

- Indoor simplex/duplex cables: \$0.05 – \$0.30 per meter .
- Single-mode outdoor cables: \$0.10 – \$0.50 per meter .
- Multimode cables (OM1/OM2/OM3): \$0.10 – \$0.60 per meter .
- Armored cables: \$0.30 – \$1.00 per meter
