

How much does it cost to pre-buried optical cable conduit in Thailand

Overview

Typical total project ranges run from about \$8,000 on small, simple runs to over \$60,000 for longer, heavily regulated deployments with underground work. Mid-Range: 2,000 ft mixed terrain, underground conduit, one splice closure, testing package included, permits and restoration. Fiber-optic cable materials typically cost \$1 to \$6 per linear foot, depending on fiber count and cable type. Commercial building installations with 100-200 network drops generally range from \$15,000 to \$30,000. This breakdown gives you real numbers to build better estimates. We'll show actual costs for. These networks are constructed both underground and through aerial fiber, at an average cost of \$1,000 to \$1,250 per residential household passed or \$60,000 to \$80,000 per mile.
