

How to make a fiber optic flange connector

Article Overview

Making a fiber optic flange connector requires precise fiber preparation, proper alignment, and secure mounting to ensure minimal signal loss and reliable optical transmission.

Materials and Tools Needed

- Fiber optic cable (single-mode or multi-mode)
- Fiber optic flange or mounting plate
- Optical fiber connector (SC, LC, or custom flange-compatible type)
- Fiber stripper and precision cleaver
- Isopropyl alcohol and lint-free wipes
- Fusion splicer or mechanical splice kit
- Optional: 3D-printed connector housing (TPU or PETG) for custom flange designs
- Small screws or nuts/bolts for securing the connector to the flange

Step-by-Step Process

1. Prepare the Fiber

- Remove the outer jacket of the fiber cable using a fiber stripper.
 - Strip the acrylate coating carefully to expose the bare fiber.
 - Clean the bare fiber with isopropyl alcohol to remove any debris or oils .
2. Cut the Fiber...
