

How to use ADSS optical cable

Overview

This guide provides general recommendations for the selection of methods, equipment, and tools for the stringing of ADSS (All Dielectric Self-supporting) fiber optic cables including short and Long Span ADSS cables. Each installation will be influenced by local conditions. The reader should be experienced in aerial fiber optic cable. This is where a special type of cable called ADSS fiber optic cable comes in! ADSS fiber optic cable is one of the most popular choices for building modern telecommunication and power line networks. When installed correctly, ADSS cables can last more than 25 years, providing stable, high-speed. This Installation Manual is a recommendatory installation document provided by HANGZHOU ZION COMMUNICATION CO. The installation manual is established based on the newest issued international standards such as IEEE Std 1222: 2004, "IEEE standard for all-dielectric.
