

Imported Fiber Optic Fusion Splicer Equipment Manufacturers

Article Overview

Top imported fiber optic fusion splicer brands include Fujikura, Sumitomo, INNO, Corning, Fitel, JILONG, Tumtec, and DIAMOND, each offering specialized models for single-fiber and ribbon-fiber splicing.

Leading Brands and Notable Models

- Fujikura: Known for high-performance splicers like the Fujikura 90S+, widely used in telecom, FTTH, and data centers. Features include fast splice times (~7 seconds), low splice loss, and automated arc calibration for consistent results .
- Sumitomo: Offers models such as the Type-72C+, designed for precision splicing with durable construction and smart alignment systems .
- INNO: Produces the View 8+, a versatile splicer with core alignment, fast heating, and smart features suitable for field and lab use .
- Corning: The OptiSplice One Handheld Fusion Splicer is durable, user-friendly, and ideal for enterprise, telco, CATV, and FTTx networks, featuring dual cameras for splice loss estimation .
- Fitel: Offers handheld and core-alignment splicers like the S179, known for portability and reliable performance in FTTH and backbone networks .
- JILONG: Provides models such as the 280E Fusion Splicer, emphasizing quality and affordability for various fiber optic applications .
- Tumtec: Specializes in optoelectronic communication equipment, offering high-performance splicers for industrial and telecom applications .
- DIAMOND: Known for precision core alignment and low-loss splicing, suitable for b...
