

Indoor electrical distribution box acceptance standard price

Article Overview

A typical indoor electrical distribution box costs between \$50 and \$2,500 depending on size, amperage, and whether installation is included.

Retail Prices for the Box

For basic indoor use, plastic or metal distribution boxes can range from \$10 to \$60 for small, simple models, while more robust or multi-circuit boxes may cost \$100–\$300 or more depending on features and durability . Online retailers like Amazon offer a variety of options, including boxes with built-in breakers or multiple outlet configurations, which can increase the price .

Installed Panel Costs

If you are replacing or installing a full indoor electrical panel, costs rise significantly due to labor, permits, and wiring. For a 100–125A indoor panel, the total cost including installation typically ranges from \$1,200 to \$2,500 . This includes the panel itself, new breakers, basic wiring, and standard permits. Higher amperage panels, complex wiring, or upgrades to meet modern code can push costs higher.

Factors Affecting Price

- Amperage: Higher amperage panels cost more.
- Material: Metal boxes are more durable than plastic and slightly more expensive....
