

Industrial Cable Tray Processing

Overview

This guide walks through each core machine, how they fit into a typical production line, what specifications to evaluate, and how to match machine choices to the cable tray sections, accessories, pipe supports, metal brackets and sheet metal components you plan to manufacture. Schiavetti Tekno, part of Spina Group, is a leading Italian manufacturer of cable trays and accessories for electrical and instrumentation systems. Since 1964, the company has supplied high-quality solutions for industrial cable management in energy, infrastructure, and plant engineering sectors. Use a CNC punching machine for mounting holes, slots, louvers and repeated patterns; use a press brake for flanges, brackets, elbows, tees and reducers;. Cable tray making machines are used to manufacture cable trays – an important component in electrical installations and industrial buildings for routing cables and wires safely.
