

Industrial secondary distribution box switch model

Article Overview

Common industrial secondary distribution switch models include Siemens 8DJH 24, ABB UniSec/UniGear series, and Eaton secondary unit substations, designed for medium-voltage indoor applications.

Siemens 8DJH 24 Switchgear

The 8DJH 24 is a factory-assembled, type-tested, 3-pole metal-enclosed switchgear for indoor installation, suitable for secondary distribution in industrial and renewable energy applications . Key features include:

- Voltage rating: up to 24 kV
- Insulation: Clean Air (natural gases), gas-insulated for compact design
- Service life: at least 40 years under normal conditions
- Maintenance: minimal, hermetically sealed enclosure protects against humidity, pollution, and small animals
- Flexibility: adaptable to new system conditions, optional earthquake resistance
- Switching devices: three-position switch-disconnectors with make-proof earthing switches
