

Installation of bridge spans along the park

Overview

This project will create a 235-ft. linear pedestrian bridge that spans La Cienega Blvd connecting two major Parkland amenities: Kenneth Hahn State Recreation Area and the recently opened Stoneview Nature Center. More than just a replacement for the historic 1932 bridge, this project reimagines a vital connection between Boyle Heights, the Arts District, and Downtown Los Angeles, transforming a once-divisive river crossing into a dynamic public space. The original viaduct was a defining piece of Los. Just over one year after the Sixth Street Viaduct replacement made its debut, Los Angeles city officials have commenced work on 12 acres of new park spaces at the foot of the \$588-million bridge. Plans for this integral piece of the 13-mile Park to Playa Trail include short. Bridge Strategic Plan.
