

# Installation of cable tray cover plate tee

## Article Overview

A cable tray tee cover plate is installed by aligning it over the T-piece joint, securing it with pre-mounted or field-mounted turn buckles, and ensuring proper edge protection to prevent cable damage.

### Step-by-Step Installation

- Preparation
  - Ensure the cable tray system is properly supported and aligned according to the layout plan.
  - Wear protective gloves and safety glasses when handling cut edges or metal components to prevent injury .
- Positioning the Tee Cover Plate
  - Place the cover plate centrally over the T-piece joint of the cable tray.
  - For add-on tees, check if the cover comes with pre-mounted turn buckles or requires manual fastening .
- Securing the Cover Plate
  - If pre-mounted turn buckles are provided, engage them with the tray edges and tighten as needed.
  - For covers without pre-mounted buckles, use the support of the tray path or additional fastening hardware to secure the cover.
  - Ensure that screws or bolts pass through the inner side of the tray rail and are secured with combination nuts on the outer side to avoid cable damage .
- Edge Protection...
