

Installation of outdoor cabinet wall-mounted type in Israel

Article Overview

Outdoor wall-mounted cabinets in Israel require durable, weather-resistant materials, secure mounting, and consideration of local environmental conditions.

Material Selection

For outdoor use, cabinet materials must withstand sun, rain, and temperature fluctuations. Common options include:

- High-Density Polyethylene (HDPE): Marine-grade polymer resistant to UV, moisture, rot, and warping, ideal for low-maintenance installations .
- Aluminum: Lightweight, corrosion-resistant, and maintains structural integrity across a wide temperature range (-80°C to +150°C). Aluminum cabinets are suitable for rooftops, balconies, and coastal areas .
- Stainless Steel (Grades 304 & 316): Strong and corrosion-resistant, with grade 316 offering enhanced protection against salt-laden air, making it suitable for coastal regions in Israel .

Mounting Considerations

- Wall Type: Ensure the wall can support the cabinet's weight. Concrete, brick, or reinforced masonry walls are preferred.
- Mounting Hardware: Use corrosion-resistant anchors, bolts, and brackets. Stainless steel or galvanized fasteners are recommended....
