

# Internet Data Center Equipment Vendors

## Article Overview

Top Internet Data Center equipment vendors include global cloud providers, colocation operators, and specialized networking and infrastructure suppliers such as AWS, Microsoft Azure, Equinix, Direct Line International, and T5 Data Centers.

### Global Data Center Operators

- Amazon Web Services (AWS): Operates over 1,250 facilities worldwide, providing compute, storage, networking, and cloud services. AWS owns and leases millions of square feet of data center space, making it a leading provider of both cloud and physical infrastructure .
- Microsoft Azure: Offers cloud computing services with a global network of data centers, supporting enterprise and hyperscale workloads .
- Equinix: Specializes in colocation and interconnection services, connecting clouds, networks, and SaaS platforms across 77 markets globally. Equinix provides physical connectivity, software-defined orchestration, and high-reliability infrastructure .
- Google Cloud, Meta Platforms, Digital Realty, NTT Global Data Centers, CyrusOne, GDS Holdings, KDDI Telehouse: These companies operate large-scale data centers with a focus on cloud services, colocation, and enterprise IT infrastructure .

### Regional and Specialized Vendors

- Direct Line International (Fremont, California): Offers full lifecycle data center services, including design, installation, and ongoing management, with a focus on safety and quality .
- T5 Data Centers (Atlanta, Georgia): Provides customized solutions for enterprise a...
