

Local cable tray support equipment in the UAE

Article Overview

The UAE offers a wide range of cable tray support systems, accessories, and installation services through suppliers like BonnGulf, West Port Middle East, Al Bustan Groups, and INSYNC International.

Cable Tray Types and Support Systems

Cable trays in the UAE are available in various types to suit different applications:

- Ladder Trays: Ideal for heavy-duty applications, providing strong support for large cable bundles and easy maintenance .
- Solid Bottom Trays: Fully enclosed trays that protect sensitive cables from dust and physical damage, suitable for data centers and telecommunication lines .
- Wire Mesh/Basket Trays: Lightweight and ventilated, perfect for IT, telecom, and fiber optic installations .
- Perforated/Channel/Through Trays: Offer moderate ventilation and support for smaller or heat-generating cables . Support systems include brackets, hangers, clamps, coupler plates, threaded rods, and cantilever arms, which ensure secure mounting to walls, ceilings, or structural frameworks . Materials commonly used are galvanized steel, stainless steel, aluminum, and epoxy-coated finishes, chosen based on environmental conditions and load requirements .
