

Nauru Aggregation Switch Manufacturer

Overview

typically refers to equipment facilitating the use of a. Typically, this includes,,, and other related hardware. This is a list of notable vendors who produce network hardware.

Article Overview

There are currently no known aggregation switch manufacturers based in Nauru; international vendors like R&S®LANCOM, Cisco, and Extreme Networks provide aggregation switches suitable for deployment in Nauru.

Overview of Aggregation Switches

Aggregation switches are high-performance network devices that consolidate traffic from multiple access switches and provide uplinks to core networks. They are essential in distributed networks, data centers, and enterprise environments for managing high bandwidth, redundancy, and advanced routing features.

Notable International Manufacturers

- R&S®LANCOM XS-5116QF: A 10G fiber-optic aggregation switch with 14 SFP+ ports and 2 QSFP+ uplinks, supporting stacking, dynamic routing, and cloud-enabled management. It is designed for mid-sized distributed networks with high performance and redundancy requirements .
- Cisco Systems: Offers a wide range of aggregation switches, including Catalyst and Nexus series, with advanced Layer 3 routing, high port density, and support for multi-gigabit Ethernet....
