

Petrochemical Cable Tray Manufacturer

Article Overview

Leading manufacturers of cable trays for petrochemical plants include Basor Electric, TechLine Manufacturing, EAE Electric, Ebo Systems, and Spina Group, offering corrosion-resistant, industrial-grade solutions.

Key Manufacturers and Offerings

Basor Electric provides cable trays for electricity, instrumentation, and communications in petrochemical, oil and gas, and chemical plants. Their systems are designed to withstand harsh environmental conditions, including corrosion and heat, ensuring reliable cable routing in both offshore and onshore installations . TechLine Manufacturing specializes in engineered cable tray systems for petrochemical plants, refineries, and process facilities. Their Snap Track® system offers industrial-grade durability, simplified installation, and compliance with NEC Article 392 and NEMA BI-50015/16 standards. Marine-grade aluminum options provide enhanced resistance to corrosion and humidity, ideal for coastal or chemical processing environments . EAE Electric offers high-performance cable ladders and busbar systems for oil, gas, and petrochemical projects. Their E-Line KCA and KX series support heavy loads with long suspension spans, providing efficient energy distribution and compliance with NEMA 20C standards . Ebo Systems, part of the Niedax Group, manufactures GRP (Glass-fiber Reinforced Polyester) cable trays with exceptional resistance to corrosive environments, extreme temperatures, and heavy loads. They provide technical planning, installation support, and global service, making them suitable for demanding petrochemical and industrial sectors . Spina Group (Schiavetti Tekno) produces stainless steel, galvanized, and wire-mesh cable trays for industrial and petrochemical applications. Their ladder, perforated, and clo...
