With speeds of up to 1 Gbps, experience smooth streaming, lag-free gaming, and seamless browsing at home. Book your roaming promos in advance. Travel confidently knowing your. As of 2025, the Philippines has fewer than 38,000 cell sites, falling short of the estimated 50,000 required to serve more than 113 million mobile users. By comparison, Indonesia operates over 121,000 sites, Vietnam around 90,000, and Myanmar has already surpassed the Philippines in tower density. The Philippines telecom tower expansion is back on track after years of slow growth. 97% through 2030, the country's mobile infrastructure is entering a new era. 32 standard, in partnership with global eSIM solutions leader Thales and Bridge Alliance, the global alliance of premier mobile operators The collaboration positions. In a statement, the DICT said there is a need to build over 30,000 cell sites as there are only around 12,000 independent common towers in the country.
