

Price Inquiry for Imported Fiber Optic Cables for Smart Buildings from Ukraine

Article Overview

Imported fiber optic cables from Ukraine typically range from \$0.09 to \$6 per foot depending on fiber type, strand count, and cable construction, with bulk purchases and single-mode fibers being more cost-effective.

Pricing Overview

The cost of fiber optic cables varies widely based on fiber type, strand count, and construction. For smart building applications:

- Single-mode fiber: \$0.10 to \$0.50 per foot for the cable itself, suitable for long-distance or backbone connections .
- Multimode fiber: \$0.30 to \$1.00 per foot, ideal for shorter indoor runs and high-speed LANs .
- High strand-count cables: A 12-strand cable costs around \$0.50 per foot, while a 24-strand cable can reach \$1.00 per foot .
- Armored or plenum-rated cables: \$0.50 to \$5 per foot, designed for harsh environments or air-handling spaces .
- Pre-terminated assemblies and patch cables: Higher costs due to factory termination and connector type . For bulk imports from Ukraine, wholesale prices may be closer to the lower end (\$0.09-\$1.52 per foot), depending on order volume and shipping terms .
