

Price List for Low-Temperature Resistant OLT Optical Line Terminals for Data Center Interconnection

Article Overview

Low-temperature resistant OLTs for data center interconnection range from compact 4-port units around \$2,000–\$5,000 to high-density 48-port systems exceeding \$25,000, depending on PON standards and port capacity.

Key OLT Options

1. FS OLTs (GPON, EPON, XGS-PON)

- High-quality OLTs suitable for data center interconnection.
- Support GPON, EPON, and XGS-PON standards.
- Modular designs allow scalability with multiple PON cards.
- Pricing typically starts at \$2,000–\$5,000 for small 4–8 port units, with larger chassis systems exceeding \$20,000 depending on port density and uplink speed . 2.

DeltaStream Series (Advanced Media Technologies)

- Compact pizza-box and chassis OLTs supporting GPON and XGS-PON.
- High-capacity models include 16-access multi-service slots and 2-network facing slots.
- Compliant with ETSI EN 300 standards, ensuring environmental resilience including low-temperature operation.
- Pricing varies by configuration; small 4–8 port units are generally \$3,000–\$6,000, while chassis systems with 16+ ports can reach \$15,000–\$25,000 . 3. ADTRAN SDX...
