

# Price of 144-core optical distribution box

## Article Overview

The price of a fully equipped 144-core optical distribution box typically ranges from \$450 to \$1,200 per unit, depending on features, pre-assembly, and supplier.

### Price Overview

- On Alibaba, a 144-core full load ODF is listed with pricing available upon request, generally starting around \$450–\$600 per unit for standard configurations, with customization options potentially increasing the cost .
- Made-in-China suppliers offer FTTH 144-core IP66 fiber optic distribution boxes suitable for indoor/outdoor use, with prices ranging from \$500 to \$1,000, depending on material quality, pre-installed splice trays, and included pigtails .
- Specialized suppliers like BWN Fiber provide pre-assembled 144-core ODF units with couplings, pigtails, and splice cassettes integrated, targeting high-density FTTH networks. These units are typically priced around \$800–\$1,200, reflecting the added convenience and integrated fiber management system .

### Features Affecting Price

- Pre-assembled vs. DIY assembly: Fully equipped units with pre-installed pigtails, adapters, and splice trays cost more than empty frames.
- Material and protection level: Boxes made from PC+ABS with IP66 rating (waterproof, dustproof, anti-aging) are more expensive than basic enclosures .
- Rack compatibility: 19" sub-rack units or wall/poled-mounted designs may influence cost.
- Customization: Logo printing, packaging, and internal layout adjustments can incr...
