

Price of 6-core fiber optic terminal box for security applications in Slovenia

Article Overview

A 6-core fiber optic terminal box suitable for security applications typically costs between €25 and €60, depending on features and supplier.

Overview

A 6-core fiber optic terminal box is designed for termination, splicing, splitting, and distribution of fiber optic cables. These boxes are commonly used in security networks, surveillance systems, and FTTH deployments. They are made from ABS or PC materials, providing durability while remaining lightweight, and often feature IP65 waterproofing, dust-proofing, and anti-aging properties for outdoor use ().

Key Features

- Adapter Compatibility: Supports SC, LC, FC, or ST adapters depending on the model ().
- Mounting Options: Suitable for wall-mount, pole-mount, or flush-mount installations ().
- Capacity: Designed for 6 fibers, often with space for splitters and pigtails ().
- Protection: Wet-proof, dust-proof, and anti-aging design ensures signal integrity and long-term reliability ().
- Material: Flame-retardant ABS or PC, providing mechanical strength and environmental stability ()....
