

Price of Flame-Retardant and Fireproof Cable Trays in Madagascar

Article Overview

Flame-retardant and fireproof cable trays typically cost between \$1 and \$7 per meter, depending on material, fire rating, and supplier, with imported products likely at the higher end in Madagascar.

Pricing Overview

The cost of fire-resistant cable trays varies significantly based on material, fire rating, and manufacturing location. Standard bulk prices from major suppliers are as follows:

- Steel or galvanized steel trays: \$0.98–\$3 per meter for basic fire-resistant models, with higher-end powder-coated or hot-dip galvanized options costing more for durability and corrosion resistance .
- Aluminum trays: Lightweight and corrosion-resistant, typically priced slightly higher than steel, around \$2–\$5 per meter .
- FRP (Fiber Reinforced Polymer) trays: Non-conductive, flame-retardant, and corrosion-resistant, ranging from \$1.14–\$7 per meter depending on specifications and bulk order size .

Factors Affecting Price

- Fire Rating: Products certified for 1, 2, or 4-hour fire resistance increase in cost. Higher fire ratings require specialized coatings or materials .
- Material and Coating: Intumescent coatings, powder coatings, or composite materials add to the price but improve fire resistance and durability
