

Price of Outdoor Cabling Systems for Computer Rooms

Article Overview

Outdoor network cabling systems for computer rooms typically cost \$150-\$400 per drop for Cat6/Cat6A, with additional costs for weatherproof enclosures and installation labor.

Cabling Costs

For professional network cabling in 2026, Cat6 drops generally cost \$150-\$250 per drop, while Cat6A drops range from \$200-\$350+ per drop, depending on installation complexity and environment . Retrofits or finished-wall installations can increase costs to \$200-\$400 per drop due to labor-intensive routing, patching, and certification . Open-wall pre-wire installations are cheaper because cable routes are more accessible and labor is concentrated .

Outdoor Enclosures

Outdoor-rated enclosures are essential for protecting network equipment from weather and environmental hazards. Prices vary based on material, size, and features:

- Plastic or ABS waterproof enclosures: \$50-\$150 for small to medium sizes with ventilation and cable grommets .
- Heavy-duty steel or aluminum enclosures: \$200-\$500+, often including cooling fans, thermostats, and lockable doors . These enclosures are rated for IP65 or higher...
