

# Price of Personalized Home Electrical Distribution Boxes

## Article Overview

Custom home electrical distribution boxes typically range from \$400 to over \$2,500 for the unit, with total installed costs reaching \$600 to \$3,500 depending on specifications and labor.

### Base Unit Costs

The cost of a custom distribution box depends on amperage, material, size, and features. Standard residential panels with a 100-amp capacity usually cost \$400–\$700, while 200-amp panels range from \$1,000–\$2,000 for the unit alone. High-end or specialty enclosures with advanced safety features or weatherproofing can exceed \$2,500 per unit. Custom enclosures made to specific project requirements, including waterproofing, interior paneling, and mounting options, may increase the base price but ensure compatibility and ease of installation.

### Installation Costs

Installation costs vary based on labor rates, wiring complexity, and accessibility. For a straightforward residential installation, expect \$120–\$260 for a single standard box. Larger or upgraded panels, outdoor installations, or difficult access can raise costs to \$800–\$1,600, with high-end setups exceeding \$3,000 including labor. Additional features like AFCI/GFCI protection can add \$150–\$300 per box.
