

Price of Single-Ended Optical Cable Junction Box

Article Overview

Single-end optical cable junction boxes typically range from \$15 to \$120 depending on capacity, brand, and features.

Price Overview

- Low-end models: Basic plastic enclosures for small-scale installations or home use can cost around \$15–\$30 on platforms like AliExpress or Made-in-China .
- Mid-range models: Boxes with moderate capacity (e.g., 12–24 fibers) and features like LC adapters or lockable lids are usually priced between \$40–\$80 on Amazon and eBay .
- High-end models: Industrial-grade or rack-mounted single-end splice boxes with higher fiber capacity, heat-shrink sealing, or O-ring protection can cost \$100–\$120 or more .

Factors Affecting Price

- Capacity: Boxes supporting more fibers or multiple splicing trays are more expensive.
- Material and durability: Polyamide or metal enclosures with weatherproofing cost more than basic plastic boxes.
- Features: Lockable lids, pre-installed adapters, or heat-shrink sealing increase the price.
- Brand and supplier: Established brands like LAPP, CAHORS, or FOSC™ series tend to be pricier than generic models
