

Price of Trough-type Cable Tray Partitions

Article Overview

Trough-type partition cable trays typically range from \$0.76 to several dollars per meter, depending on material, load capacity, and customization options.

Price Overview

The cost of trough-type cable trays varies significantly based on material, size, and environmental suitability. For example:

- Galvanized steel trays are widely used for durability and corrosion resistance, with prices starting around \$0.76 per meter for standard industrial applications, especially when purchased in bulk or factory-direct from manufacturers .
- Stainless steel trays (grades 304 or 316) are more expensive due to superior corrosion resistance, suitable for chemical plants, coastal areas, or high-humidity environments .
- Aluminum or fiberglass-reinforced plastic (FRP) trays may also be available, with costs varying based on structural strength and environmental protection requirements .

Factors Affecting Price

- Material Type: Mild steel is cheaper than stainless steel or FRP. Galvanized coatings add to cost but improve longevity.
- Load Capacity and Size: Wider or heavier-duty trays designed for high cable loads cost more....
