

Price of Vertical Cable Tray Binding

Article Overview

Vertical cable trays and cable binding trays vary widely in price depending on material, size, and supplier, with industrial-grade options typically ranging from \$20 to \$200 per meter or unit.

Vertical Cable Tray Pricing

Vertical cable trays are designed for efficient vertical routing of power, data, and control cables in industrial, commercial, and renewable energy installations. Prices depend on material, load capacity, and finish:

- Galvanized Steel: Common for indoor and outdoor use; prices typically range from \$25 to \$80 per meter depending on thickness and perforation type ().
- Stainless Steel (304/316): Offers superior corrosion resistance and fire performance; prices range from \$60 to \$200 per meter for high-specification trays ().
- Aluminum or Powder-Coated Options: Lightweight and corrosion-resistant; generally \$40 to \$120 per meter (). Bulk purchases for large projects, such as data centers or industrial facilities, often reduce per-unit costs. Suppliers like Schneider Electric, Eaton, and Legrand provide customized solutions for high-volume orders ().

Cable Binding Tray Pricing

Cable binding trays, also known as wire mesh or perforated trays, are used to organize and secure multiple cables along horizontal or vertical runs:

- Wire Mesh Trays: Typically \$20 to \$60 per meter, depending on gauge and coating...
