

Price of cable trays for photovoltaic factory buildings

Article Overview

Cable trays for PV factory buildings typically range from \$20 to \$150 per meter, depending on type, material, and load capacity.

Types of Cable Trays and Cost Factors

-

Ladder Cable Trays: Most common for large-scale PV installations due to excellent ventilation and high load-bearing capacity. Ideal for long DC cable runs in factory buildings. Prices generally range from \$50 to \$150 per meter, depending on material and span length .

-

Perforated Cable Trays: Provide a balance between ventilation and cable protection, suitable for inverter rooms or areas with mixed power and control cables. Typical costs are \$40 to \$100 per meter .

-

Solid-Bottom Cable Trays: Used in sensitive areas requiring maximum protection from dust, debris, or liquids. Less common for long outdoor runs but may be used indoors. Prices range from \$30 to \$120 per meter .

Material Considerations

- Galvanized Steel: Strong, corrosion-resistant, and cost-effective for indoor and out...
