

Price of outdoor cable trays along walls

Article Overview

Outdoor wall cable trays typically range from \$20 to \$150 per meter, depending on material, size, and load capacity.

Factors Affecting Price

-

Material: Outdoor cable trays are commonly made from hot-dip galvanized steel, stainless steel, or high-quality insulating materials. Hot-dip galvanized trays are more corrosion-resistant and suitable for harsh weather, which increases cost compared to pre-galvanized or plastic trays .

-

Tray Type and Design: Options include solid wall, perforated, or ladder-style trays. Solid or reinforced trays provide better protection against debris and physical damage, while perforated trays allow ventilation and easier cable management. Ladder-style trays are ideal for heavy power cables .

-

Load Capacity and Duty Rating: Trays are classified as light, medium, or heavy-duty. Heavy-duty trays designed for industrial applications or high cable loads are more expensive due to thicker gauge steel and reinforced construction .

-

Length and Width: Standard lengths are 1-meter or 3-meter sections, with widths ranging from 50mm to 600mm. Larger widths and longer sections increase the price
