

Price of side-mounted accessories for mesh cable trays

Article Overview

The price of side mounting mesh cable trays varies widely depending on material, size, and brand, typically ranging from £20 to over £100 per meter for standard commercial options.

Factors Affecting Price

- **Material:** Stainless steel trays (SS304 or SS316) are more expensive due to corrosion resistance and durability, while electro-galvanized or hot-dip galvanized steel trays are generally more affordable but still robust for most installations .
- **Side Height and Width:** Trays with higher side walls (e.g., 35 mm, 55 mm, 105 mm) or wider widths to accommodate more cables cost more due to increased material usage and load capacity .
- **Brand and System Features:** Premium brands like OBO Bettermann, RS PRO, and EAE Electric offer quick-mounting systems, modular accessories, and fire-rated options, which can increase the price .
- **Accessories and Installation:** Additional components such as bends, hold-down clamps, brackets, and covers can add to the overall cost. Systems designed for rapid, screwless installation may also carry a premium .

Typical Price Range

- Small, basic electro-galvanized trays: Approximately £20–£40 per meter.
- Medium-duty stainless steel trays with side mounting: Around £50–£80 per meter.
- Heavy-duty or fire-rated systems with full accessories: Can exceed £100 per meter...
