

Relay Protection Test Report Format

Article Overview

A relay protection test report typically includes sections for test objectives, relay details, test procedures, measured results, and conclusions.

Suggested Format for a Relay Protection Test Report

1. Report Header

- Report Title (e.g., "Relay Protection Test Report")
- Project/Plant Name
- Relay Manufacturer and Model
- Relay Serial Number
- Date of Test
- Test Engineer(s) Name(s)
- Location of Test
- 2. Test Objectives
 - Purpose of the test (e.g., functional verification, type testing, compliance with standards)
 - Scope of testing (e.g., overcurrent, differential, distance, or loss-of-mains protection)
- 3. Relay Settings
 - Name and type of protection function (e.g., 50/51, 21, 27, 32)
 - Setpoints (pickup current, time delay, voltage thresholds, frequency limits)
 - CT and VT ratios
 - Any special configuration or logic applied
- 4. Test Equipment
 - List of test instruments (e.g., relay test sets, current and voltage injection devices)
 - Calibration status and accuracy
- 5. Test Procedure
 - Step-by-step description of tests performed, including:...
