

Requirements for Fiber Optic Sensor Production Workshops

Overview

This guide explores five essential aspects: 1) creating a functional floor plan, 2) strategically positioning equipment, 3) optimizing production workflows, 4) adhering to safety and compliance standards, and 5) implementing effective material handling and storage solutions. SPE Workshop maximises idea exchange among attendees and discussion leaders through brief technical presentations followed by extended Q&A periods. Together, these. The International Telecommunication Union (ITU) organized the IEC TC86 and ITU-T SG15 Joint Workshop on “Standardization Roadmap for Cabled Multi-Core Fibre and Optical Network Sensing Technologies ” in the afternoon of 17 October 2025 from 14h30 to 17h30 CEST at ITU Headquarters in Geneva. Al Salour, Boeing Research & Technology Arturo Angel, Omron Automation Americas Cheng-Jen (Allen) Chen, Innovatech Solutions Justin Shade, Phoenix Contact Kim Fung Tsang, City University of Hong Kong Mark Vanhorne, The Boeing Company Penny Chen, Yokogawa America Sebti Foufou, University of Burgundy. Experts from the Fraunhofer Institute for Applied Optics and Precision Engineering IOF offer a practical application training on optical fibers in the institute's laboratories in addition to teaching theoretical principles. Training: "Optical Fibers" for Skilled Workers Experts from the Fraunhofer. The workshop will focus on recent developments in fiber optic sensing, including high-value use cases, technology drivers, and emerging trends. We aim to bring together current and prospective technology end-users, problem owners, and experts in sensor hardware, tools, fibers, cables.
