

Self-operated 86-type fiber optic panel

Article Overview

The 86-type fiber optic panel is a compact, wall-mounted terminal designed for FTTH, FTTN, and FTTD applications, supporting SC, LC, and FC connectors with easy installation and fiber protection.

Overview

The 86-type fiber optic panel is a mini indoor faceplate with a standard 86x86mm size, designed for residential or small office environments . It features a compact plug-in design and a modern aesthetic, making it suitable for both open and concealed cabling installations . The panel is typically made from high-quality ABS or PC plastic, providing durability, fire resistance, and a lightweight structure .

Key Features

- **Connector Compatibility:** Supports SC, LC, and SC/FC adapters, allowing flexible fiber interface options .
- **Fiber Protection:** Equipped with a large-diameter wrapping post to protect optical fibers from bending or damage .
- **Capacity:** Commonly designed for 2-core fibers, but can accommodate multiple cores depending on the model .
- **Installation:** The clasp cover design reduces installation effort, and the panel can be mounted on walls or integrated with other A86 panels .
- **Appearance:** Slim and aesthetically compatible with home or office interiors, often in a white finish
