

Self-supporting outdoor optical cable supplier

Article Overview

Leading manufacturers of self-supporting outdoor optical cables (ADSS) include Opelink, Abalone, ZTO Fiber Cable, GL Technology, and Corning.

Key Manufacturers and Offerings

Opelink produces a wide range of outdoor fiber optic cables, including ADSS aerial self-supporting cables designed to withstand wind, ice, UV radiation, and moisture. Their cables feature water-blocking technology, UV-resistant jackets, and optional armoring for rodent protection, suitable for aerial, duct, and direct burial installations . Abalone specializes in ADSS (All-Dielectric Self-Supporting) fiber cables, which are non-metallic and robust for aerial installations without a messenger wire. These cables use loose tube designs with FRP (Fiber Reinforced Plastic) central strength members, providing high durability and interference-free performance for telecom and power utility networks . ZTO Fiber Cable manufactures ADSS cables for long-span aerial and utility applications. Their factory produces up to 10 million kilometers of fiber optic cables annually, offering ISO 9001-certified production lines. ZTO provides customized solutions, fast turnaround, and a 30-year service life for ADSS cables . GL Technology (GL Fiber) offers ADSS and OPGW cables, along with aerial, duct, and direct-buried outdoor fiber optic cables. They have over 21 years of experience and export to more than 190 countries, supplying cables for power utilities, telecom operators, and infrastructure projects . Corning provides a comprehensive portfolio of outdoor fiber optic cables, including self-supporting aerial cables. Their products are engineered for environmental extremes, with options for loose tube, ribbon, and mi...
