

Spain Optical Cable Project

Overview

The project will install a 7,100 km state-of-the-art submarine optical fibre cable in the Mediterranean to connect Northern African countries with Cyprus, France, Italy, Portugal and Spain. The power connection will be developed by INELFE, a 50:50 joint venture between Spanish grid operator Red Eléctrica and French grid operator Réseau de Transport. Prysmian Group, world leader in the energy and telecom cable systems industry, has been awarded a contract worth above €800 million for a new power interconnection between France and Spain. Fires in Ourense and León caused fiber optic outages; Vodafone restored service and activated support measures. Local deployments: Arona connects its pavilion to the municipal network to boost. PISCES is a new open-access subsea cable linking Ireland, Portugal, Spain and France, reinforcing Europe's digital connectivity and resilience., Bermuda, the Azores, and Spain. Sol translates to “sun” in Spanish and Portuguese, a nod to the cable system's landing points in warmer climates. Alongside the Nuvem subsea cable, Sol completes our unique. Spain Optical Cable Fitting Market Size, Strategic Opportunities & Forecast (2026-2033) Market size (2024): USD 1. 2 billion · Forecast (2033): USD 2.
